SUMMARY

Frontend Engineer with 2.5+ years(1.5 fulltime + 1 internships) specializing in **React, TypeScript**, and **performance-driven UI architecture**. Expert in building scalable, data-intensive dashboards with 30-40% performance gains through optimization, state management, and modern frontend tooling. Proficient in advanced 3D visualization using **Three.js and React Three Fiber**. Proven ability to deliver responsive, accessible interfaces serving 2,000+ daily users.

EXPERIENCE

Associate Software Engineer Sep 2024 – Present

Infinite Computer Solutions *Noida*

UPPCL MDM Analytics Dashboard v2

- Architected data-intensive dashboard in **React, TypeScript, Tailwind CSS** visualizing **5,000+ meter records** with interactive charts using Visx and Recharts for UP power distribution analytics.
- Designed and implemented **3D data visualization layer using Three.js, React Three Fiber, and Drei** for advanced spatial analytics, enabling real-time 3D chart rendering and meter geospatial mapping on a single-page application.
- Optimized frontend performance using **React Query, lazy loading, and code splitting**, reducing network calls by **35%** and achieving TTFB under 2 seconds.
- Implemented responsive, mobile-first UI with **Tailwind CSS**, ensuring cross-device compatibility and improving user engagement by **25%**.

BEST ICRS – Complaint Portal

- Built production-ready React frontend serving **2,000+ daily users** with **i18next multilingual support** and real-time state management using Redux.
- Developed disability support module with **WCAG 2.1 AA compliance**, featuring screen reader optimization, keyboard navigation, and high-contrast themes for improved accessibility.
- Integrated AI chatbot interface automating 40% of user queries with accessible UI patterns and ARIA attributes.
- Optimized bundle size by **45%** through tree-shaking, dynamic imports, and Vite build optimizations, improving initial load time to under 1.5s.

Infinite Horizon – Employee Portal

- Developed modular dashboard UI with **Next.js SSR** and client-side hydration, reducing perceived load time by **40%**.
- Implemented advanced search UI with autocomplete, debouncing, and filter components, improving search response time by 30%.

Software Engineer Intern Jan 2024 – Aug 2024

Infinite Computer Solutions *Noida*

- Developed production UI components using **React, Material-UI**, and TypeScript with focus on accessibility and responsiveness.
- Collaborated with UX designers to translate Figma wireframes into pixel-perfect, interactive interfaces.

Frontend Developer Intern May 2023 – Nov 2023

Hippo Toys *Remote*

- Built complete checkout flow UI with multi-step forms, payment integration (Razorpay), and order tracking dashboard in React.
- Designed admin analytics dashboard with **TanStack Table** for 10K+ records, featuring sorting, filtering, and server-side pagination.

TECHNICAL SKILLS

- **Frontend Core:** React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **UI & Styling:** Tailwind CSS, Material-UI, Responsive Design, CSS-in-JS, Mobile-First Design
- **State & Data:** Redux, React Query, Context API, REST API Integration, WebSockets
- **Visualization:** Visx, Recharts, D3.js, Chart.js, Three.js, React Three Fiber, Drei, Data-driven UI
- **3D Graphics:** Three.js, React Three Fiber, Drei (3D primitives & utilities), Spatial data visualization
- **Tooling:** Vite, Webpack, pnpm, Git, ESLint, Prettier, VS Code
- **Backend (Supporting):** Node.js, Express, MongoDB, PostgreSQL, JWT Auth

EDUCATION

Chitkara University 2020 – 2024

B.E. Computer Science — CGPA: 9.69 *Rajpura, Punjab*
